SJ

SUMMARY

Innovative, task-driven professional with 9+years of experience in Python, WEB development across diverse industries. Equipped with a record of success in consistently identifying and providing the technological needs of companies through ingenious innovation. Proficient in developing Django, Flask Site, Full-Stack, Back-End Development, creating user interfaces, writing, and testing codes, troubleshooting simple/complex issues, and implementing new features based on user feedback

EXPERIENCE

Full Stack Developer

Palantir

📅 2018 - 2022   📍 New York, NY

Built scalable APIs resulting in faster data retrieval and processing

- Translating designs into high-quality code (Had the task of turningurning designs into quality code that makes applications work effectively with React.js, Vue.js, Next.js, Nuxt.js).
- Collaborating with back-end developers to improve usability Reviewed, analyzed, and optimized server performance by 50%, using React, NodeJS, Python, Django, MongoDB, and Express
- Resolved 300+critical bugs in the project to improve performance and helped customers launch a seamless experience
- Engineered 600+ landing pages in Javascript/Typescript, HTML/HTML5 and CSS/CSS3 to support mobile and desktop environments
- Worked with modules like MongoDB and mongoose for database persistence using Node.js to interact with MongoDB

Software Engineer

Google

📅 2017 - 2018   📍 Mountain View, CA

Implemented accessibility features, resulting in an improved user experience for disabled users

- Conducted over 100 successful testings to identify bugs that resulted in over 500 UI improvements
- Responsible for developing mobile responsive web applications using React.js, Next.js, Angular.js, Vue.js, Bootstrap, Javascript/TypeScript, PHP, HTML5, CSS3
- Assisted and was a key part in the transition from a waterfall methodology to a more efficient Agile methodology which increased the efficiency of the development team by 25% in the first 3 months
- Utilized Node.js, React, and Angular for scalable website architecture and real-time technology
- Developed 20+ responsive websites for clients in a variety of industries using React.js, Vue.js
- Collaborated with the UX/UI design teams to improve the website and applications

STRENGTHS

⚡ **Data-driven decision maker**
Increased efficiency by 20% by implementing data-driven decision-making processes.

🏅 **Collaborator**
Successfully collaborated with cross-functional teams to deliver complex projects on time and on budget.

⭐ **Problem solver**
Consistently identified and resolved complex technical issues, resulting in improved system performance and increased user satisfaction.

SKILLS

React	Vue.js	Angular	Next.js
Nuxt.js	Javascript	Node.js	
Django	PHP	Laravel	Mysql
MongoDB	GraphQL	Solidity	
Rust	Wordpress	AWS	Web3.js
Express	NestJS	Java Spring	
Tailwind CSS	MUI	Bootstrap	
Typescript	SCSS	C++	C#
Tool / Technology			

ACHIEVEMENTS

⭐ **Launching a new product**
Led a team of developers in designing and launching a new product, resulting in increased revenue and customer satisfaction.

💡 **Mentoring junior developers**
Successfully mentored multiple junior developers, resulting in their professional growth and improved team productivity.

EDUCATION

Bachelor of Science in Computer Science
Massachusetts Institute of Technology

📅 2011 - 2015   📍 Cambridge, MA
